RE: Senate Bill 354

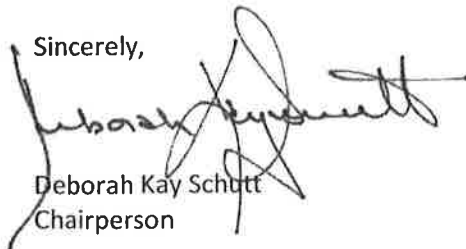

Dear Senator Hune:

The Michigan Pet Fund Alliance supports Senate Bill 354 and urges you to schedule a hearing, vote to approve and send to the full senate floor for approval before summer recess.

Euthanasia by Injection (EBI) is not only more cost effective and the recommended approach by the American Veterinarian Medical Association, it is a more humane method and morally what Michigan voters want.

Three years ago we submitted thousands of postcards signed by Michigan residents asking for a ban on the gas chamber. Since that time, several states – most recently Texas - have signed into law such a ban. It is about time that Michigan catches up.

Sincerely,

Deborah Kay Schutt
Chairperson
